For a list of all the other settings you can change, take a look at the following article: The medical management of depression and anxiety disorders in children. Depression and anxiety disorders are the most common psychiatric disorders in children and youth. Both are common, impairing, chronic conditions, with an approximate lifetime prevalence of 10% to 15% in children and youth. Depression in children is associated with considerable functional impairment. Numerous longitudinal studies have demonstrated that depression in children and adolescents is a significant risk factor for the later onset and progression of adult depression. Anxiety disorders are also common in youth, with an estimated prevalence rate of approximately 30%. The most common anxiety disorders in childhood are specific phobia, obsessive-compulsive disorder, and social anxiety disorder. Children with depression and anxiety disorders respond poorly to psychiatric drugs, and evidence-based treatment approaches for depression and anxiety disorders in youth are largely lacking. There is a pressing need for improved methods to treat these common, debilitating disorders in children and youth. Sino-Japanese relations have not been good at any point in the past decade, from territorial disputes in the Dokdo/Takeshima Islands to the dispute over trade and Japan's industrial espionage in China. But relations between the two countries are now at a low point. To start, China has been increasingly determined to oppose Japanese entry into the Trans-Pacific Partnership (TPP) without obtaining adequate concessions from Tokyo. Moreover, China has been using Japan's economic difficulties as a pretext to fill its own diplomatic and military vacuum in East Asia. As it happens, China has also recently moved closer to Russia, which is in the same position in the Far East as Japan was during the post-World War II Cold War era. Moscow, which has not forgotten its losing nuclear confrontation with Japan in the 1960s, may also be trying to use its current dissatisfaction with Tokyo to turn the screws on the world's last Japanese-ruled country. After a nuclear accident in Japan in 2011 and the Japan-U.S. 2012 defense agreement, China is also taking a tougher line toward the U.S. and its allies. Beijing was the most vocal opponent of the U.S. decision to go to war with Iraq in 2003 and has 82157476af
