FC3 is designed to make a much more dynamic, interactive gameplay experience, befitting a modern, online, combat flight simulator. Improvements over FC2 include more advanced graphics, a new and deeper flight model, and new online features. While FC3 was a standalone product, it can still be enjoyed separately, with separate high-end-quality graphics and a fully featured online combat flight simulator. FC3 is also available as a free-to-play app in the iOS and Android App Stores. Features The new and more dynamic multiplayer and single player experience The game offers the opportunity to play in multiple player modes including Team Deathmatch, 1v1, 2v2, 3v3, and Free for All, in a variety of game modes, as well as to create your own game mode by scripting them.
